## Oita Onsen Tour Guide Map

The hot springs of Oita City are drawn from deep subterranean thermal springs that are 600 to 800 meters below the Earth's surface. Its water can range in color from amber to black due to ancient deposits of plant matter and presence of carbon dioxide gas. These properties result in waters with a unique sweet aroma that leaves a soft feeling on the skin. These baths will smooth and rejuvenate the skin of anyone who takes a dip in them. Try it to see the effects on your own skin! Furthermore, recent research has shown that the mineral-rich deep subterranean thermal springs contain helium and carbon dioxide gas commonly found deep beneath the Earth.

- The springs have rich colors from amber to black!
- A unique sweet fragrance and soft on your skin!
- After the bath your skin will be silky smooth!

Features of Oita City's Onsen (Deep Subterranean Thermal Springs)

### Onsen Etiquette

- Everyone is naked in the onsen.** Underwear or bathing suits cannot be worn. \*At some facilities, towels are provided that should be worn.
- Conserve water.** Don't leave showers running when not in use.
- Hot springs are for washing your body.** Do not wash clothes or brush your teeth in the bathing area.
- First, rinse your body.** Before entering the bath, use showers or bath water to rinse off sweat or dirt.
- You can only soak your body in the bath.** Tie up your long hair so it does not soak in the bath. Towels should also not be soaked in the bath.
- Be careful of splashing!** When using the showers, be careful not to splash those around or behind you.
- Keep changing areas clean.** After bathing, wipe water off your body before entering the changing room.
- Each facility has its own bathing style.** Even if the bath water is too hot, do not add water to adjust the temperature by yourself. Do not stay too long in the bath.
- You may feel unwell while bathing.** Avoid bathing right after meals or after drinking alcohol.
- Rehydrate!** After a bath, drink plenty of water and take a rest.
